

Your Guide to Charge your EV E-Mobility Charging

Scan & Download Our “E-Mobility Charging” Mobile App

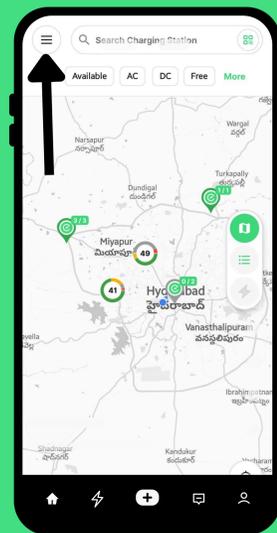

887 - 611 - 1555

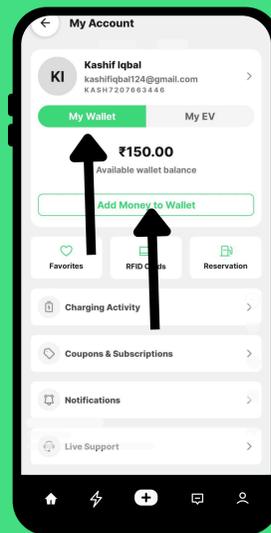

support@electrikmobility.com

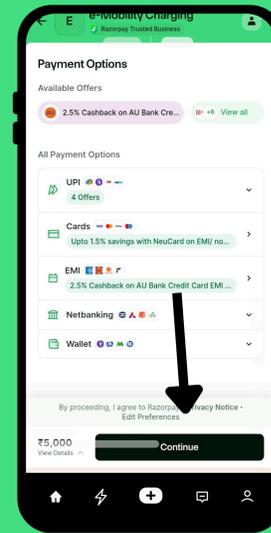

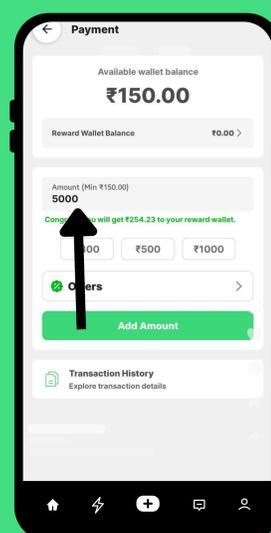

www.electrikmobility.com

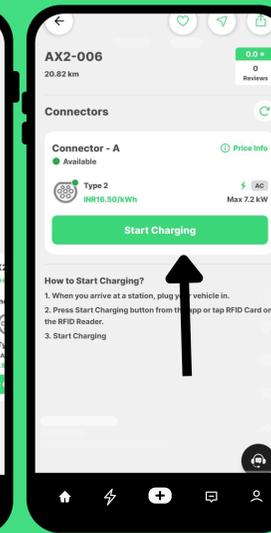

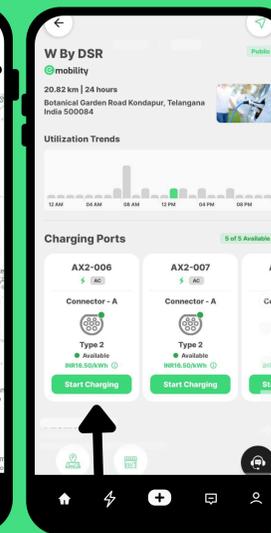

Tap on the **≡ hamburger icon** on the top left corner to open the menu tab

Click on **≡ hamburger icon** to view **My Wallet**, Tap on **My Wallet** and then tap on **ADD MONEY TO WALLET** option to recharge your wallet using **Razor Pay**

Locate the charger in the app or manually scan the **QR Code** (Using the **Scanning feature** found in the top right corner of the app) placed on the hardware to identify the charger. choose the connector that is available for charging

- Park your vehicle in the slot provided in front of the charger, Unlock the charging gun from the charger & Connect to the EV
- Tap on **START CHARGING** to initiate the charging session.
- You can find charging session related details in the **ACTIVE SESSION** tab on the main screen
- Charging would **STOP AUTOMATICALLY** after the vehicle is **FULLY CHARGED** (or) Charging can be stopped in between by pressing **STOP CHARGING** in the mobile app.
- Place the charging gun back in the holder and vacate the parking area.
